## TECHNICAL SKILLS

---

- **HTML**
- **CSS**
- **JavaScript**
- **Basics of React**
- **JAVA**

## PERSONAL PROJECTS

---

### 1) TextUtils

- Tech Stack - React.js
- Developed a text manipulation web application using React.js, enabling users to effortlessly convert text to uppercase or lowercase, copy text to the clipboard, and clear input.
- Implemented an intuitive light and dark mode feature for enhanced user experience and accessibility.

### 2) Bubble Game

- Tech Stack - HTML , CSS , JavaScript
- The Game generates a random number , and user is challenged to identify and click on the corresponding number within a grid of multiple randomized numbers
- Demonstrated strong front-end development skills by designing an intuitive user interface and enhancing user experience.
