Aurangabad, Maharashtra

PROJECTS

E-Learning Study Resources Platform  | [Tech Stack - MERN Stack](#)

- Inhouse Internship Project which provides students with access to Study Resources and Video Lectures created by professors.
- Enables professors to **Login** and perform **CRUD** Operations to add, remove, delete or update resources.
- Implemented Login Functionality for Professors using **JWT Token Generation**.
- Resources are organized year-wise and subject-wise, allowing teachers to easily access and modify data for specific subjects and units.

Foodies Corner  | [Tech Stack - ReactJS , TailwindCSS](#)

- Developed Foodies Corner using React JS to display a list of restaurants and their menus by fetching data directly from the **Swiggy API**.
- Implemented state management using **React Redux**, enabling centralized cart functionality for adding food items.
- Employed **Tailwind CSS** to design the website.

Coding Circle Website - PICT CSI Student Branch  | [Tech Stack - ReactJS](#)

- Worked as a part of a team to develop a Coding Circle Website for the PICT CSI Club.
- This website provides comprehensive information about the Coding Circle Group within the club.
- My role in this project was to design a web page which has a detailed roadmap for competitive programming and resources for the same.

SKILLS

- **Computer Languages:** Java | JavaScript | SQL | HTML | CSS
- **Frameworks:** ReactJS | TailwindCSS
- **Computer Fundamentals:** Object-Oriented Programming | Database Management System | Operating Systems | Data Structures and Algorithms
- **Databases:** MongoDB | MySQL
- **Web Development Tools:** NodeJS | VSCode

EXTRACURRICULAR

Management Team - PICT INC 2023

- Served on the Management Team for PICT INC 2023, efficiently managing judges' schedules and ensuring smooth coordination throughout the event.

PICT CSI Student Branch

- Active member of the PICT CSI Student Branch Club, contributed to various club activities and projects.
